MEMORANDUM FOR: Chief, TSS/Engineering Division

ATTENTION:

50X1

SUBJECT: Cargo Rocket

REFERENCE: Memorandum, 24 July, from TSS to Chief, FI/OPS

1. Per your request, this office has completed a survey of the operating divisions to determine whether or not a requirement exists for such a device as described in the reference. The results indicate that no requirement exists at the present time for such a cargo rocket.

2. The major objection voiced by almost all of the operating divisions, as indicated to you in our earlier discussion, to the rocket as described, centered around the range limitation. Nevertheless, the idea was received with interest and this office wishes to encourage TSS/Engineering Division to generate such ideas for future consideration.
